

Guide Builder Project Proposal (Sample)

Device: Dell Inspiron 13-5368

Team tag: CPSU-DOE-F20S1G1

Camera: Canon PowerShot A480 (10 megapixels)

Group email addresses: rosieb@ifixit.edu, austinb@ifixit.edu, sarahw@ifixit.edu

Hello iFixit:

For our Technical Writing Project, we propose the Dell Inspiron 13-5368, a laptop made by Dell.

The Dell Inspiron 13-5368 currently has a device page on the iFixit website at the following URL:
https://www.ifixit.com/Device/Dell_Inspiron_13-5368.

Additionally, iFixit users have created guides for the following components:

- Battery
- Fan
- Heat sink
- Screen display
- Touchpad
- Webcam

Our team will shoot our replacement guides with a 10-megapixel Canon PowerShot A480. After looking at the existing guides, we determined that we would create guides for the following components:

- Motherboard
- Hard drive
- CPU
- RAM
- Graphics card

Thank you for considering our proposal. We're excited to contribute to iFixit, and we believe our team will be able to provide high-quality guides that meet the standard users have come to expect on iFixit. Please let us know if we can proceed, or if we need to make any changes to our proposal before moving forward.

Sincerely,

[Rosie B.](#), [Austin B.](#), and [Sarah W.](#)
